SKIN AS A
LIVING INTERFACE

GLOBAL APPROACH
RATHER THAN ISOLATED
PRODUCTS

EASE
OF USE

Akore Skincare® combines topical skincare serums (OUT) with complementary food supplements (IN). Developed together by our in-house R&D teams using vectorized ingredient formulations, they form five coordinated 30-day protocols addressing five key skin needs.

PROTOCOL

EXCLUSIVE METHOD IBA 1→3

The skin is a living interface between the body and its environment.

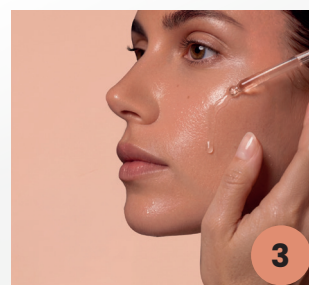

Akore Skincare has developed a global approach that respects the skin's physiology. Our food supplements and serums are formulated in-house to work in synergy, while breathing exercises and massage techniques round off the treatment program.

**INGEST**

Take 2 capsules of the food supplement every day.

**BREATHE**

Take 3 slow breaths to activate oxygenation and circulation.
Boost circulation & oxygenation.

**APPLY**

Apply the serum to clean skin with the dedicated application gesture (IBA).

IN & OUT PROTOCOLS

LIPOSOMAL FOOD SUPPLEMENTS (IN) · NIOSOMAL SERUMS (OUT)

✓ VECTORIZED ACTIVE INGREDIENTS

PLUMPING SKIN

IN	+	OUT
 KEY INGREDIENTS ✓ Ceramosides® ✓ Vitamin C ✓ Hyaluronic acid Also available individually*		 KEY INGREDIENTS ✓ Panthenol ✓ Hyaluronic acid 96% NATURAL ORIGINS Also available individually*
